“EXTRA PROTECTION” TWO PUMP SYSTEM

The “Extra Protection” Two-Pump System is an economical solution to the costly duplex alternating pump system and it’s easy to install.

The “Extra Protection” Two Pump System consists of:

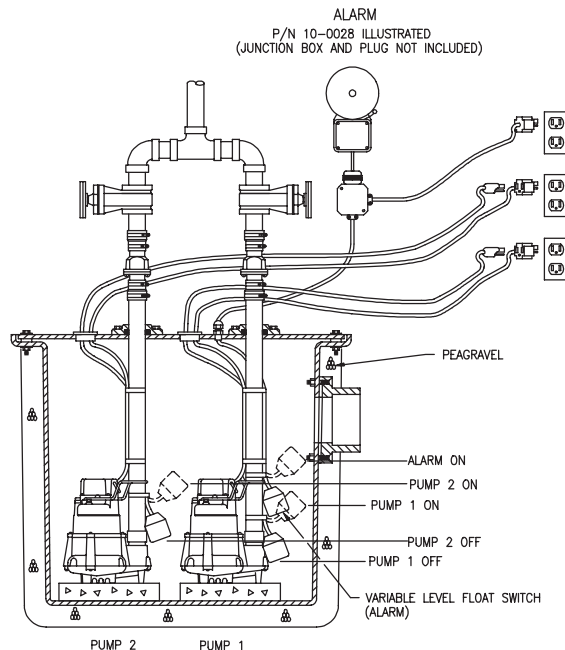

- a. The two pumps of your choice
(See Chart On Back)
- b. One Alarm System
(See Chart On Back)
- c. Two Unicheck Valves as required
(See Chart On Back)

ADVANTAGES

- (1) The two-pump system offers high pump performance without the high price. It is a system that fits your needs and your budget.
- (2) Delivers more dependability than a single pump system and greatly reduces the chance of costly and time consuming problems associated with wear out or damages and the resulting system failures.
- (3) Affords greater satisfaction and peace of mind to all concerned by providing state of the art protection for costly and expensive surroundings.
- (4) Easy and economical to install.

NOTE: *Minimum distance between on points 2".

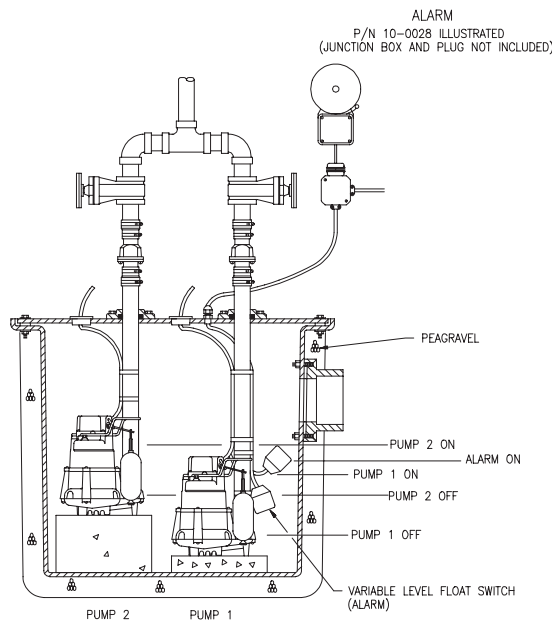

BE & BN Pump Model Systems

SK878

Note: Lead and lag pump can be altered by switching pump power cord to opposite switch outlets.

M & D Pump Model Systems

NOTE:*MINIMUM DISTANCE BETWEEN PUMP HEIGHTS IS 2"

SK1602
